

# Family Worship at Home

## Limited Streaming License for Churches

Thank you for purchasing this volume of Family Worship at Home! Your purchase includes a limited streaming license for the episodes included in the purchased volume. Here are some suggestions on how to distribute – and how *not* to distribute - this content to the families in your church.

**\*\*Important!\*\*** Your families will not be able to view the episodes on our site. Those videos are viewable only by users with purchased licenses (like you!) You should utilize one of the methods below to distribute the videos.

### WHAT YOU CAN DO

- **Upload the episodes to your Facebook page or other social media** so long as the video can “expire” after a certain length of time. Your video post should expire 45 days after the upload. Here’s [how to make a video expire on Facebook](#). Episodes can be uploaded multiple times – for instance, if you wanted to revisit the episodes with your families at a later date – so long as they are not uploaded permanently and are always set to expire after 45 days.
- **Stream the episodes via your live streaming service.** The streaming events can be archived so long as the archive is not publicly accessible. Episodes may be streamed multiple times.
- **Stream the episodes via Facebook Live or YouTube Premiere**, so long as the stream “expires” in 45 days. The episodes must NOT be permanently stored on YouTube. Episodes may be streamed multiple times.
- **Host the episodes on your website using the embed codes we provide.** To enable embedding, be sure to give us your website URL when you purchase your license. If you did not give us your website URL at purchase, please email it to [info@doorpostsongs.com](mailto:info@doorpostsongs.com).

### WHAT YOU CANNOT DO

- **Upload episodes to YouTube, Vimeo, or any other video hosting service.** (You are welcome to embed episodes using the codes we provide.)
- **Leave episodes up in any location longer than 45 days at a time**, including social media, streaming service archives that are publicly available, and your website.
- **Edit, alter, or extract clips from the episodes in ANY fashion.**

We are delighted to partner with you to help kids and families open God’s Word together. We think it’s the most meaningful investment we can make in a child’s spiritual health and development. Please reach out to us with any questions at [info@doorpostsongs.com](mailto:info@doorpostsongs.com).
